AESI is a cultural association that has as its main target the promotion of human rights in politics and international cooperation. AESI wants to develop in particular, with its activities, a real culture of cooperation among populations and Nations, respecting human being's dignity and identity. AESI wants to contribute to the training of those young students who are preparing themselves for a diplomatic career or a career in the European or International Institutions. More than 3000 students and young graduates have already taken part in the Seminars organised together with the Diplomatic Studies Club, the Centre for Advanced Defence Studies, the Ministry of Foreign Affairs, the European Commission and the European Parliament Information Office in Italy. AESI has also organized many International FORUMS in the Balkan Area (at the University of Sarajevo with EUFOR), in the Middle East (at USEK and Lebanese Universities in Lebanon with UNIFIL, with Israel and Palestinian Universities at UNTSO, at the Universities in Cyprus with UNFICYP), at the NATO Headquarters in Brussels, at the European Parliament, at the Italian Permanent Representation to the European Commission, at OCED in Paris and at UNOG in Geneva in 2015. Many of AESI students have already started a diplomatic career, or are working in the relevant offices of International Organizations. Among the speakers of AESI's events, there are more than 100 Ambassadors, representatives of the United Nations, the European Commission, the European Parliament, Generals and University Professors who have contributed with their fieldwork and with their knowledge and experience. The Association is a non profit organisation and is totally independent from a political point of view.

SCIENTIFIC COMMITTEE MEETINGS - THESIS AND FORUMS AESI

AMBASSADOR DANIELE MANCINI – AESI SCIENTIFIC COMMITTEE

"Knowing the past is central to build a future of global peace and solidarity. Training new students today is the key to prevent yesterday's mistakes by the leaders of tomorrow. Our commitment towards young generations is to provide them all the valuable teachings they need to understand the international complexity. A multidisciplinary education is necessary to develop their thinking in a way which allows them to be fully aware of the connected world around us, hoping they will be able to make it a better place to live in."

AMBASSADOR GABRIELE CHECCHIA – AESI SCIENTIFIC COMMITTEE

"AESI: Through young generations' enthusiasm, commitment and dedication, we build a better future for Europe and beyond, based on few solid pillars: self-respect and respect for the others, shared values, personal engagement in life and society, faith in the potential of culture, dialogue and reciprocal knowledge. We believe that All of them, are irreplaceable tools to nurture real peace, long lasting friendship and understanding between countries and nations."

YOUTH FORUM OF EUROPEAN UNIVERSITY STUDENTS

"So dear friends, I want to encourage you to work for peace, to work for solidarity and for the spirit I have felt in this room which is, I think, very inspiring. I'm speaking now to the students: I wish you good decisions in your personal and political lives since perhaps there are some people here who might one day be members of the European Parliament or of national parliaments. The 21st Century is your century, but if it has to be a good century, based on peace and solidarity, you cannot just wait that others will give to you; you have to work for it, you have to be engaged. I'm very happy to have been here with you this evening even though it has been for such a short time."

"Welcome to the Palace of Nations. It is always a pleasure to interact with young people. In particular with young people who are active in International Affairs studies. An innovative way of thinking is needed to maximize the benefits of existing systems and to tackle global challenges, here in Geneva and elsewhere. I therefore believe that You, who represent the next generation of thinkers and leaders of international business, You will be very busy. We look forward to seeing you at work! Good luck! "

Educating the new generations to understand the past in order to prepare the future is the only strategy which can prevent the repetition of mistakes which have plagued the history of mankind. Those who engage in such a task deserve the highest consideration and the young men and women who take this opportunity to grow provide us with the hope that tomorrow will be better than today. AESI is strongly engaged in such an effort and I will continue, within means and capabilities, to offer my external contribution, for the benefit of all.

ROBERT SCHUMAN

CON JEAN MONNET

"L'Europa non potrà farsi in una sola volta, né sarà costruita tutta insieme; essa sorgerà da realizzazioni concrete che creino anzitutto una solidarietà di fatto" (Robert Schuman)

"La democrazia deve la sua origine e il suo sviluppo al cristianesimo. È nata, quando l'uomo è stato chiamato a realizzare la dignità della persona nella libertà individuale, il rispetto dei diritti degli altri e l'amore verso il prossimo. Prima dell'annuncio cristiano tali principî non erano stati formulati, né erano mai divenuti la base spirituale di un sistema di autorità." (Robert Schuman)

KONRAD ADENAUER

"Noi europei dobbiamo esercitare assieme anche la politica estera, solo questo obiettivo può realmente aiutarci." (Konrad Adenauer)

"A lungo termine il futuro dell'Occidente non è tanto minacciato dalla tensione politica quanto dal pericolo della massificazione, dell'uniformità del pensiero e del sentimento; in breve, da tutto il sistema di vita, dalla fuga dalla responsabilità, con l'unica preoccupazione per il proprio io. Questo pericolo può diventare veramente mortale per il progresso culturale" (Konrad Adenauer)

ALCIDE DE GASPERI

"All'origine di questa civiltà europea si trova il cristianesimo. Non intendo con ciò introdurre alcun criterio confessionale, esclusivo, nell'apprezzamento della nostra storia. Soltanto voglio parlare di un retaggio comune europeo, di quella morale unitaria che esalta la persona e la responsabilità della persona umana" (Alcide De Gasperi)

ALTIERO SPINELLI

"Il compito di realizzare l'unità europea non spetta ad un'imprecisabile generazione di un imprecisabile futuro, ma spettava alla nostra generazione." (Altiero Spinelli)
